About the Peak Tram and The Peak Tower

The Peak Tram is one of the world's oldest and most famous funicular railways. Opened in May 1888, the double reversible funicular railway, as it is technically known, rises from 33m to 396m above sea level along a 1.27 km track with a gradient of between 4 to 25.7 degrees. As one of Hong Kong's most popular tourist attractions, the Peak Tram terminates at The Peak Tower shopping and entertainment complex, which has some of the world's greatest panoramic views.

The Peak Tower is one of Hong Kong's most recognisable icons and is a leading tourist destination. The Peak Tower also offers exciting signature restaurants with stunning views, as well as a number of innovative casual dining outlets. A unique festival-market-style shopping arcade and spectacular special-effects lighting, both inside and out, also serve to make The Peak Tower one of Hong Kong's most compelling leisure destinations for residents and tourists alike.

Located at 428 metres above sea level, Sky Terrace 428, the highest viewing terrace in Hong Kong offers stunning spectacular panoramic views of our vibrant city – from the stunning cityscape to the tranquillity of green landscapes, across Victoria Harbour and the South China Sea.
